SECTION I - INTRODUCTION

The Death Benefit Plan with respect to members covered under the Teachers' and State Employees' Retirement System of North Carolina became effective as of July 1, 1979 under 135-5(l) of the statutes. The Trustees of the Death Benefit Plan subsequently permitted the participation of members of the North Carolina Local Governmental Employees' Retirement System in the Plan under 128-27(l) of the statutes. Previously, death benefits were provided directly from the member's respective retirement system. The Separate Insurance Benefits Plan for Law Enforcement Officers became effective January 1, 1986 under 143-166.60 of the statutes. The Retirees' Contributory Death Benefit Plan became effective July 1, 1988 under 120-4.27 of the statutes for retired members of the Legislative Retirement System, under 128-27(l2) of the statutes for retired members of the Local Governmental Employees' Retirement System, under 135-5(l) of the statutes for retired members of the Teachers' and State Employees' Retirement System and under 135-64(g) of the statutes for retired members of the Consolidated Judicial Retirement System.

This report presents the results of a valuation of the Plans prepared as of December 31, 2008.

SECTION IV - RESULTS OF VALUATION

There are reserves in the Death Benefit Trust of \$17,676,633 for teachers and state employees, \$65,508,550 for local governmental employees, \$63,330,605 for the Separate Insurance Benefits Plan for law enforcement officers and \$147,778,127 for the Retirees' Contributory Death Benefit Plan. The comparison in Table II shows that the total death benefits paid increased from 2007 to 2008 and the contributions increased from 2007 to 2008.

Death Benefit Plan for Members of the Teachers and State Employees' Retirement System

Contributions of 0.16% of payroll have resumed beginning July 1, 2005. The valuation indicates that current assets and contribution rates are adequate to support the benefits.

The actuarial valuation of the Death Benefit Plan for members of the Teachers' and State Employees' Retirement Systems as of December 31, 2008 shows that the Plan has liabilities of \$193,139,821. Against these liabilities, the Plan has present assets of \$17,676,633. Prospective contributions by the State based on a 0.16% contribution rate have a value of \$210,812,067. The present and prospective assets, which amount to \$228,488,700, exceed the liabilities of \$193,139,821 by \$35,348,879.

Death Benefit Plan for Members of the Local Governmental Employees' Retirement System

Coverage under the Death Benefit Plan is optional for general employees and firemen of employers participating in the Local Governmental Employees' Retirement System. Coverage is mandatory for law enforcement officers. Schedule C of this report shows the rates of contribution payable for general employees and firemen by those employers who have elected death benefit coverage. The rate for law enforcement officers is 0.14% of payroll. The death benefit was increased, effective July 1, 2004, to provide a minimum of \$25,000 and a maximum of \$50,000. The contribution rate for local units with death benefit coverage as of June 30, 2004 has not been increased for this benefit improvement. However, units electing death benefit coverage beginning July 1, 2004, will pay the full cost of the new benefit.

The actuarial valuation of the Death Benefit Plan for Members of the Local Governmental Employees' Retirement System as of December 31, 2008 shows that the Plan has total liabilities of \$64,042,487. Against these liabilities, the Plan has present assets of \$65,508,550. Prospective contributions by the participating employers have a value of \$39,351,561. The total present and prospective assets amount to \$104,860,111, which exceeds the liabilities of \$64,042,487 by \$40,817,624.

Separate Insurance Benefits Plan for Law Enforcement Officers

Benefits payable under the Separate Insurance Benefits Plan are supported by the cost of court as provided in 7A-304(a)(3) of the statutes. However, these contributions have been suspended. The actuarial valuation of the Separate Insurance Benefits Plan for Law Enforcement Officers as of December 31, 2008 shows that the Plan has liabilities of \$15,928,014. Against these liabilities, the Plan has present assets of \$63,330,605. Since current assets are more than adequate to support the benefits, the contributions to the Plan could continue to be suspended or benefits could be improved.

Retirees' Contributory Death Benefit Plan

Benefits payable under the Retirees' Contributory Death Benefit Plan are supported entirely by the contributions of the participants and the investment earnings on these contributions. The monthly contribution rates are shown in Schedule B.

The actuarial valuation of the Retirees' Contributory Death Benefit Plan as of December 31, 2008 shows that the Plan has liabilities of \$215,739,733. Against these liabilities the Plan has present assets of \$147,778,127. Prospective contributions of participants eligible for benefits (those with two or more years of coverage) have a value of \$88,345,695. The total present and prospective assets amount to \$236,123,822, which exceeds the liabilities of \$215,739,733 by \$20,384,089.

SECTION V - ACTUARIAL METHOD AND ASSUMPTIONS

The contributions to the Death Benefit Plans payable by covered employers are determined on a one-year term cost basis, utilizing the mortality rates shown in Schedule A. Schedule A also shows the mortality rates used to prepare the actuarial valuation of the Retirees' Contributory Death Benefit Plan. The present values of future contributions are based on the assumptions for the appropriate valuation of the retirement system or fund covering the employees entitled to the death benefits covered by this report.
