Members of the Board:

This report presents the results of a valuation of the Death Benefit Plans for members of the Teachers' and State Employees' Retirement System of North Carolina (TSERS) and the North Carolina Local Governmental Employees' Retirement System (LGERS), the Separate Insurance Benefits Plan for Law Enforcement Officers, and the Retirees' Contributory Death Benefit Plan prepared as of December 31, 2009.

An investigation of the demographic, economic and other assumptions for TSERS and LGERS was made during 2010. This valuation includes all assumption changes approved by the Board of Trustees as a result of this investigation.

An audit of the Report on the Actuarial Valuation of the Death Benefit Plans prepared as of December 31, 2007 was completed during 2010. Buck reviewed the findings of the audit report with the Retirement Systems Division and agreed to make certain changes to the valuation report. These changes have been included in this valuation.

The plan sponsor selected the assumptions used for the results in this report. I believe that these assumptions are reasonable.

I am an Enrolled Actuary, a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained in this report. This report has been prepared in accordance with all applicable Actuarial Standards of Practice, and I am available to answer questions about it.

The Table of Contents, which immediately follows, outlines the material contained in the report.

SECTION I - INTRODUCTION

The Death Benefit Plan with respect to members covered under the Teachers' and State Employees' Retirement System of North Carolina became effective as of July 1, 1979 under 135-5(l) of the statutes. The Trustees of the Death Benefit Plan subsequently permitted the participation of members of the North Carolina Local Governmental Employees' Retirement System in the Plan under 128-27(l) of the statutes. Previously, death benefits were provided directly from the member's respective retirement system. The Separate Insurance Benefits Plan for Law Enforcement Officers became effective January 1, 1986 under 143-166.60 of the statutes. The Retirees' Contributory Death Benefit Plan became effective July 1, 1988 under 120-4.27 of the statutes for retired members of the Legislative Retirement System, under 128-27(l2) of the statutes for retired members of the Local Governmental Employees' Retirement System, under 135-5(l) of the statutes for retired members of the Teachers' and State Employees' Retirement System and under 135-64(g) of the statutes for retired members of the Consolidated Judicial Retirement System.

This report presents the results of a valuation of the Plans prepared as of December 31, 2009.

SECTION V - RESULTS OF VALUATION

There are reserves in the Death Benefit Trust of \$21,064,499 for teachers and state employees, \$69,364,050 for local governmental employees, \$66,743,694 for the Separate Insurance Benefits Plan for law enforcement officers and \$162,869,548 for the Retirees' Contributory Death Benefit Plan. The comparison in Table II shows that the total death benefits paid increased from 2008 to 2009 and the contributions increased from 2008 to 2009.

Death Benefit Plan for Members of the Teachers and State Employees' Retirement System

The actuarial valuation of the Death Benefit Plan for members of the Teachers' and State Employees' Retirement Systems as of December 31, 2009 shows that the Plan has liabilities of \$227,168,651. Against these liabilities, the Plan has present assets of \$21,064,499. Prospective contributions by the State based on a 0.16% contribution rate have a value of \$209,888,566. The present and prospective assets, which amount to \$230,953,065, exceed the liabilities of \$227,168,651 by \$3,784,414.

Death Benefit Plan for Members of the Local Governmental Employees' Retirement System

Coverage under the Death Benefit Plan is optional for general employees and firemen of employers participating in the Local Governmental Employees' Retirement System. Coverage is mandatory for law enforcement officers. Schedule C of this report shows the rates of contribution payable for general employees and firemen by those employers who have elected death benefit coverage. The rate for law enforcement officers is 0.14% of payroll. The death benefit was increased, effective July 1, 2004, to provide a minimum of \$25,000 and a maximum of \$50,000. The contribution rate for local units with death benefit coverage as of June 30, 2004 has not been increased for this benefit improvement. However, units electing death benefit coverage beginning July 1, 2004, will pay the full cost of the new benefit.

The actuarial valuation of the Death Benefit Plan for Members of the Local Governmental Employees' Retirement System as of December 31, 2009 shows that the Plan has total liabilities of \$63,648,636. Against these liabilities, the Plan has present assets of \$69,364,050. Prospective contributions by the participating employers have a value of \$42,181,269. The total present and prospective assets amount to \$111,545,319, which exceeds the liabilities of \$63,648,636 by \$47,896,683.

Separate Insurance Benefits Plan for Law Enforcement Officers

Benefits payable under the Separate Insurance Benefits Plan are supported by the cost of court as provided in 7A-304(a)(3) of the statutes. However, these contributions have been suspended. The actuarial valuation of the Separate Insurance Benefits Plan for Law Enforcement Officers as of December 31, 2009 shows that the Plan has liabilities of \$20,355,510. Against these liabilities, the Plan has present assets of \$66,743,694. Since current assets are more than adequate to support the benefits, the contributions to the Plan could continue to be suspended or benefits could be improved.

Retirees' Contributory Death Benefit Plan

Benefits payable under the Retirees' Contributory Death Benefit Plan are supported entirely by the contributions of the participants and the investment earnings on these contributions. The monthly contribution rates are shown in Schedule B.

The actuarial valuation of the Retirees' Contributory Death Benefit Plan as of December 31, 2009 shows that the Plan has liabilities of \$338,954,335. Against these liabilities the Plan has present assets of \$162,869,548.

Prospective contributions of participants eligible for benefits (those with two or more years of coverage) have a value of \$155,977,587. The total present and prospective assets amount to \$318,847,135, which are less than the liabilities of \$338,954,335 by \$20,107,200. The current assets and contribution rates of the Retirees' Contributory Death Benefit Plan are not adequate. The plan provisions and/or contribution rates should be changed to reverse this projected shortfall.

SECTION VI - ACTUARIAL METHOD AND ASSUMPTIONS

The contributions to the Death Benefit Plans payable by covered employers are determined on a one-year term cost basis, utilizing the mortality rates shown in Schedule A. Schedule A also shows the mortality rates used to prepare the actuarial valuation of the Retirees' Contributory Death Benefit Plan. The present values of future contributions are based on the assumptions for the appropriate valuation of the retirement system or fund covering the employees entitled to the death benefits covered by this report with the exception of the interest rate, which is 5.75% per annum, compounded annually for the Death Benefit Plans.

DEATHS AFTER RETIREMENT (NON-DISABLED): According to the RP-2000 Mortality tables for retirees. These tables are set back one year for male teachers, set forward one year for all state general employees and unadjusted for female teachers, female general employees and all state law enforcement officers. Additionally, these tables are set forward two years for male local general employees, all firemen and all local law enforcement officers. These tables are also set forward one year for male beneficiaries of deceased members and set forward two years for female beneficiaries of deceased members. The base retiree RP-2000 tables have no rates prior to age 50. The active employee rates of RP-2000 are used for ages less than 50 prior to any adjustments for setbacks.

DEATH AFTER DISABILITY: According to the RP-2000 Mortality tables for disabled annuitants set back six years for males and set forward one year for females.

DEATHS PRIOR TO RETIREMENT: According to the RP-2000 Mortality tables for active employees. These tables are set back one year for male teachers, set forward one year for all state general employees and unadjusted for female teachers, female general employees and all state law enforcement officers. Additionally, these tables are set forward two years for male local general employees, all firemen and all local law enforcement officers. The base RP-2000 tables for active employees have no rates after age 70. A blend of active rates and retired rates are used from ages 70 to 80 prior to any set back and adjustments.

MORTALITY PROJECTION (NON-DISABLED): All mortality rates are projected from December 31, 2003 using Scale AA.

SCHEDULE B - SUMMARY OF PLAN PROVISIONS**DEATH BENEFIT PLANS FOR MEMBERS OF THE TEACHERS'
AND STATE EMPLOYEES' RETIREMENT SYSTEM OF NORTH CAROLINA
AND THE NORTH CAROLINA LOCAL GOVERNMENTAL EMPLOYEES' RETIREMENT SYSTEM**

Upon the death of a member in active service after one year of membership, or a former member within 180 days after termination of service, or a former member in receipt of a benefit from the Disability Income Plan of North Carolina, a lump sum death benefit is payable to his designated beneficiary or legal representative.

Such death benefit shall be equal to the greater of:

- (1) The compensation on which contributions were made by the member during the calendar year preceding the year in which his death occurs, or
- (2) The greatest compensation on which contributions were made by the member during the 12-month period of service within the 24-month period of service ending on the last day of the month preceding the month in which his last day of actual service occurs.

For all employees, (1) and (2) above are subject to a minimum of twenty-five thousand dollars (\$25,000) and to a maximum of fifty thousand dollars (\$50,000).

**SEPARATE INSURANCE BENEFITS PLAN
FOR LAW ENFORCEMENT OFFICERS**

Upon the death of a law enforcement officer in active service, or a former law enforcement officer who had 20 or more years of service as a State or local governmental law enforcement officer, or a former law enforcement officer who is in receipt of a disability retirement allowance from any State-administered retirement system, or a former law enforcement officer in receipt of a benefit from the Disability Income Plan of North Carolina, a lump sum death benefit is payable to his surviving spouse or estate. Such death benefit shall be equal to the following:

- (1) For participants who are employed by an employer at the time of death, a benefit not to exceed \$5,000;

- (2) For participants who are eligible former officers, a benefit not to exceed \$4,000; and
- (3) For participants who die while in the actual performance of duty as an officer, an accidental line-of-duty benefit not to exceed \$2,100.

RETIREEES' CONTRIBUTORY DEATH BENEFIT PLAN

Coverage under the Retirees' Contributory Death Benefit Plan is available to all members who are retired under the Teachers' and State Employees' Retirement System, the Local Governmental Employees' Retirement System, the Consolidated Judicial Retirement System and the Legislative Retirement System. Benefits payable under the Retirees' Contributory Death Benefit Plan are supported entirely by the contributions of participants.

The following is a schedule of the monthly participant contribution rates under the Retirees' Contributory Death Benefit Plan.

Coverage Age	Monthly Rate If Elected Upon Retirement	Monthly Rate If Elected in Open Enrollment (February 1, 2008 to May 31, 2008)
Less than 50	\$8	\$8.89
50	8	8.89
55	12	13.33
60	16	17.78

70	31	34.44
75	43	47.77
80	59	65.55
85	80	88.88

Upon the death of a participant, a lump sum death benefit is payable to his surviving spouse or estate. Such death benefit shall be equal to the following:

- (1) \$10,000, if death occurs on or after 24 months of coverage.
- (2) The total of the monthly contributions plus interest at an annual rate determined by the Board of Trustees, if death occurs before 24 months of coverage.
